

Table 2 Pearson correlation between parasitic intensity of *Taxillus thibetensis* and growth characteristics of *Q. aliena*.

	Parasitic intensity	Diameter	Height	Crown width
Parasitic intensity	****	2.98E-13	3.36E-11	7.10E-15
Diameter	0.610	****	2.09E-18	7.09E-8
Height	0.563	0.700	****	4.25E-14
Crown width	0.642	0.469	0.627	****

Note: The left diagonal shows the pearson correlation coefficient; The right diagonal shows the p value
